

Seat Half-pattern

Arm
Half-pattern

Comb pattern

COMB-BACK CHAIR
from
‘BUILD A CHAIR FROM BULLS%\$T’

Notes on these patterns

- All patterns are drawn full-size.
- The centerpoint of each mortise is marked with an X. The circle around the X represents the size of the drill bit used to make the mortise – not the shape of the rim of the mortise (which will be slightly oval).
- Complete illustrations and instructions necessary to build this chair are in “Build a Chair from Bulls%\$T” (Lost Art Press).
- Drawings are by Christopher Schwarz.
- The patterns are free to reproduce for personal use.
- These plans are Printing No. 3 (June 2025)
